The Virgin Purity of "MAP OF ITALY"

It is what has made it the favorite wherever a fair trial is given. Beware of imitations; a good product always has them. The name of John Vittucci on a package is your assurance that you are securing the Genuine. Virgin means the First Genuine Pressing. No better Olive Oil can be produced.

For years V.V.O.O. has been known to thousands of housewives as the Olive Oil of the house.

BULGARIANS AND GREEKS IN MOST BLOODY CONFLICT

Recent Battle Proves Worst of All Those Fought in Entire War.

London, Aug. 1.—The Daily Telegraph describes the Greeks at Saloniki as the recent battle between the Greeks and Bulgarians in the Thracian district as the most hotly contested and sanguinary of the entire war.

The Bulgarians, the correspondent says, reinforced by 50,000 men who had withdrawn from the Serbian frontier, made an unexpected attack on the Greek left flank. The fight raged three days with varying success, but victory finally rested with the Greeks, who captured again their lost positions.

The Greek losses were 2,000 men killed, including many officers, heavy losses of horses, and 7,000 wounded. Bulgarians are advancing.

London, Aug. 1.—A despatch to the Times from Sofia says the Bulgarian military situation when five days' armistice was arranged, was considered very favorable. The correspondent adds that it is reported that the Bulgarians have occupied Nevyokop, Bulgaria, whence the Greeks fled, and routed the Greek left wing in the Strana Valley, and are believed to be advancing on Menlik, about 15 miles southwest of Nevyokop. Equal forces have been employed for the first time in battle since the recent battles.

Greeks Repulse Attacks. Athens, Aug. 1.—Official dispatches received here confirm that a strong attack by the Bulgarians compelled the Greeks to retire to defensive positions on the heights in the neighborhood of Petchovik, and Kavala, but they claim that fresh Bulgarian attacks near Drama, in Thracian, about six miles from Petchovik, were repulsed.

NORTHERN TROOPS STEADILY SUBDUING THE SOUTHERNERS

Adherents of the President Advocate a Dictatorial Form of Government.

THEIR ULTIMATE HOPE IS FOR A NEW YUAN DYNASTY

They Contend that Any Compromise at the Present Time Would Mean Chronic State of Revolution.

Hong Kong, Aug. 1.—General Lung, commander of the government forces in the province of Kwang Hsi, proceeding against the secessionists in the province of Shu-Li-Hing, on the west river of the Canton, the general Lung, which was in the hands of the rebels. Communication with Shing Hui has been cut off and trains stopped. Troops have been hurried to oppose the advance of General Lung's forces, but the city of Canton is panic stricken. There is an immense crowd in the city and all business is suspended.

Northern Making Gains. Peking, Aug. 1.—Revolutionary forces in the south are being steadily subdued by the northern troops supporting the government of Provisional President Yuan Shai Kai. The rebel leaders disappear whenever the revolutionary centers are menaced by the government troops.

Yuan Shai Kai's adherents express much doubt over the successes gained by the loyal armies and advocate the introduction of a dictatorial form of government. It is said they hope for the ultimate establishment of a new Yuan dynasty under which they would share in the spoils of office. They contend that any compromise at the present time would place China in a chronic condition of revolution, which they believe would be most disastrous owing to the territorial aspirations of Russia and Japan.

Peace of Peking Imminent. Peking, Aug. 1.—With the fall of the forts at the mouth of the Yang Tze River, which is believed here to be imminent, the Yang Tze would be cleared of the rebels and it is thought the rebels would resolve itself into provincial quarrels, which could be terminated.

Reports received here from Shanghai say that Sun Yat Sen, former provisional president, is still there, but that General Chen Men and General Yuan Shai Kai, two other leaders in the revolt, have fled.

Quiet at Shanghai. Shanghai, Aug. 1.—Everything was quiet here today. The rebel forces in this district have dwindled to 1,000. The Kiang Nan arsenal has been re-opened by the arrival of 1,000 government troops over land, and it is believed that negotiations are in progress with the rebels for the cession of the Wu Hung forts.

Japs for Southerners. London, Aug. 1.—Discussion of the report that Japanese support is being given to the rebellion, the Times' Peking correspondent says the little value is to be attached to the official denial of the report issued in Peking and Tokyo.

The correspondent adds Japanese sympathy is with the south and many Japanese in China have assisted the rebels at least with money, but the Japanese government desires to maintain strict neutrality and Japanese consuls in China have been instructed to warn Japanese residents against any participation in the rebellion.

THREE CANADIAN JUDGMENTS. London, Aug. 1.—The privy council delivered three Canadian judgments today in the consolidated appeal of the Canadian Pacific railway versus the S.S. Knapville, and the S.S. Montclair versus the S.S. Knapville, arising out of collision between the vessels in the St. Lawrence in September, 1910, allowed with costs.

Their lordships were unable to find any blame attachable to the Montclair, the appeal of Jones versus the Canadian Pacific railway, arising out of a fatal accident to a lumber train at Ouelph Junction, February, 1911, was allowed.

The action was taken under the workmen's compensation act, for damages in respect of the death of the appellant's husband. Special leave was granted to the Canadian Pacific railway to cross appeal.

The case of Kennedy versus Kennedy, and others concerning an Ontario judgment regarding the construction of a will, were dismissed.

DESERTS HIS COLLEAGUES. Washington, Aug. 1.—Democrat of the senate who stand pledged to vote for the Underwood-Simmons tariff bill listened yesterday to one of their number who has repudiated the bill because of the free sugar plank. Senator Thornton of Louisiana, a voluntary sugar planter, being in his state, denounced the policy of free sugar and the purpose is to desert his party's action as a "play" and "shame."

FUSION CANDIDATE NAMED. New York, Aug. 1.—John P. Mitchell, collector of the port of New York, was nominated for mayor of this city on the fusion ticket by the fusion committee of 101 shortly before 2:30 o'clock this morning. Mr. Mitchell is 45 years of age, was born in New York, and was afterwards made unsuccessful.

44 MILES IN 33 MINUTES BY AIR

Canadian Aviator Blakely Makes Flight from Brandon to Boissevain.

Brandon, Man., Aug. 1.—H. V. Blakely, the mail aviator, who has been flying here during the dominion fair, left Brandon at 6:40 this morning in his biplane to Boissevain, landing safe and sound in the northern Manitoba town in exactly 33 minutes 30 seconds.

The distance, as the crow flies, is 44 miles. Blakely will fly to the Boissevain fair and will then fly to Virden, afterwards returning to Brandon by the usual route.

TO FIGHT STANDARD OIL.
Berlin, Aug. 1.—A society for the defence of the Danube, under the name of the Bavarian Lloyd, and with an initial capital of \$100,000 has been formed under the auspices of the Bavarian government. Its purpose is the development of the freight traffic on the Danube and the facilitation of the importing into Germany of oil from the Roumanian fields, in order to compete with the Standard Oil people in the German market.

CALGARY WILL NOT PAY HIGH RATE OF INTEREST

Declines a Loan From Chicago at a Figure Greater Than The Price Asked for in London.

Calgary, Aug. 1.—Calgary does not wish to pay six and a half per cent. for money obtained by treasury notes. It was decided at a special meeting of the finance committee of the city council yesterday, so a proposal by Mayor Samuel, asking if the city would accept an offer made to him by the purchase of \$500,000 worth of treasury bills at that rate was turned down.

It was stated that the city was not pushed for money at the present time, and that there did not appear to be any need of the city paying a better rate than was being paid in London, as it would injure Calgary's credit.

STEAM ROLLER RUNS AWAY.
Westminster, B.C., Aug. 1.—A steam roller belonging to the Hiasam Pavement company ran away down Sixth street this morning. The roller struck the tail of the engine with a tremendous crash. The roller and the tender were both badly smashed. No one was hurt.

ATLANTIC RATE WAR IS FEARED

Trouble Between Hamburg-American and Nord Deutsche Lloyd to Spread.

London, Aug. 1.—The quarrel which has arisen between the Hamburg-American and the Nord Deutsche Lloyd lines over the division of steamer traffic will, it is feared, extend to other lines, with the almost certain prospect that the North Atlantic conference will break up, causing a real rate war.

The Hamburg-American line, owing to having the 50,000-ton steamship Imperator in service with two others of the same class to follow next year, is claiming a larger percentage of liner traffic from German ports than it handles under the existing agreement. The Nord Deutsche Lloyd contends that it runs more ships, and that in view of its intention to increase its service to New York, it is impossible to make any concessions.

LOWER VALDEZ ISLAND IN THE GRIP OF FIRE

Little Hope of Saving Much of the Timber With Which the Island is Covered.

Yanover, Aug. 1.—Lower Valdez Island, about 120 miles up the coast north from Vancouver, is in the grip of the fire king. Information was received in this city that the fire had broken out in a place known as Husties' ranch and that it was spreading rapidly.

Large number of fire wardens are being rushed to the scene, but there is little hope of saving much of the timber with which the island is covered.

COMMISSION ISSUES ORDERS.
Ottawa, Aug. 1.—Resuscitation from apparent death from an electric shock, following a fall from a railway car, and the equipment of locomotives with steps, form the three subjects of circulars just issued by the railway commission to all Canadian roads.

As regards electric shocks, attention is called to a set of rules already issued by the board dealing with resuscitation from apparent death from such causes and they are ordered to be posted where every department will notice them. Attention is called to the advisability of warning employees about the absolute necessity of keeping away from all electric light or power lines.

The Rev. H. B. McGill, pastor of Main street Baptist church, and Mrs. McGill returned yesterday from Hamilton, where they have been spending their vacation.

THE GAY WORLD.

McDONALD—BROWN.

Miss Florence May Brown, third daughter of Mr. and Mrs. James C. Brown, of 1143 Fourth Avenue N.E., and Mr. Norman Stuart McDonald, were married at Knox church, near the Rev. F. McLaughlin. The bride was attended by her sister, Miss Annie Brown, while Mr. Walter G. Watson acted as best man. Mr. and Mrs. McDonald left for Calgary, Banff and Vancouver, where the honeymoon will be spent. On their return they will take up their residence on the north side.

COOPER—BLAYNEY.

It was a pretty home wedding that of Miss Lillian Blayney, eldest daughter of Mr. and Mrs. J. D. Blayney, the Highlands, to Mr. George E. Cooper. The Rev. Mr. McEwen officiated and the ceremony took place at seven o'clock.

The bride, given away by her father, wore a gown of soft white satin trimmed with beaded chamois. An embroidered tulle veil flowed in graceful lines from a coronet-like arrangement of orange blossoms. The bridal bouquet was of cream roses, Little Jean Campbell, a niece of the bridegroom, was ring bearer in a dainty white satin frock made with shadow lace.

During the ceremony Miss Lillian Blayney played selections of wedding music. The house was decorated for the occasion with bridal roses, white carnations and sweet peas.

Mr. and Mrs. Cooper, left on the midnight train for California, the bride travelling in a specially tailored navy blue suit and jaunty black velvet hat.

SKENFIELD—CARRUTHERS.

At high noon yesterday Miss Maude Marie, daughter of Mr. and Mrs. A. B. Carruthers, 414 First street, became the bride of Mr. Alfred H. Skenfield. It was a house wedding, and the bride's home was beautifully decorated with flowers and banded palms. The ceremony was performed under an archway of trailing vines.

The bride wore a very delicate shade of pink satin chamois made with a long panel train and draped with charmingly lace. The pattern picked out daintily with tiny roses. Her bouquet was of pink roses. Master Teddie Webster, the bride's nephew, was ring bearer. There were no other attendants.

After the ceremony and luncheon Mr. and Mrs. Skenfield left on the three o'clock train for Vancouver, from

which they sail for California. The bride travelled in a costume of navy blue serge with hat of blue velvet and gold. On their return to Edmonton Mr. and Mrs. Skenfield will make their home at the corner of Nelson and Eleventh street.

Want Two Women Officers

The shocking story of a Calgary Chinaman's abuse of a little Polish girl told to a meeting of the Calgary Local Council of Women has decided that body to ask the women's clubs in Calgary to petition for the appointment of two women officers.

Social service workers also reported that the public dance halls were badly regulated and that there was no bylaw governing the hours of closing and no wearing of protecting the young girls who frequent them from falling into the clutches of the "white slavers."

Old-fashioned people wonder what

sort of woman she will be, since she is growing blase and bored before she even puts her hair up. The alibi of a woman among girls is also condemned.

The golf girl, who is delighted with herself in her wicker basket, her light dress almost up to her knees, is pronounced by General Chalmers as unattractive and unattractive.

Then the mothers are scolded for losing control or authority in their efforts to appear as young as their daughters.

But the women of today are not without their champions, who compare them favorably with the Mid-Victorian mothers, with their historic blouses and pretended prudery and inane.

CASTRO AGAIN IS RUNNING A REVOLT

OFFICERS ELECTED BY ORANGE LODGE

Once More the Former President Has Resumed His Activities in Venezuela

New York, Aug. 1.—Confirmation of the reports that Cipriano Castro has begun revolutionary activities in Venezuela was received here yesterday in cablegram to General Jose Manuel Hernandez, leader of the National Liberal party in Venezuela, now a political exile in this country. The message, dated Tuesday and sent by one of the general's agents at Caracas, Colombia, near the Venezuelan border, read: "Castro's followers have begun to rise."

It is what is expected that General Hernandez last night, "but I have no further information on Castro's activities."

Attack Is Unsuccessful.

Bartu A. Spain, Trinidad, July 31.—It is reported here that a small party of Venezuelan revolutionaries made an unsuccessful attack Monday on the Port of Cristobal, Colombia, and that General Hernandez, on board a government warship, is now in pursuit of them.

Cristobal is a port on the Peninsula of Para, in the northeastern part of Venezuela. The town lies at the western end of Arica, Bay.

THE EARTH WAS SUFFERING.

Not long ago, when her father purchased a country place in Virginia, a little Washington girl was afflicted by a "scurvy" of the face.

She rose very early and her eye was immediately caught by the sparkle of the dew on the grass.

"Why, daddy," she observed, "it's better than I thought! See the grass all covered with perspiration!"

She was cured.

SUFFERED 2 MONTHS WITH HEMORRHOIDS

Began with Itching Sensation. Kept Awake at Night. Caused Great Pain. Thought Operation Only Cure. Cuticura Soap and Ointment Entirely Cured in 6 Weeks.

64 Strange St., Toronto, Ontario.—"I suffered for two months with the piles. They first began with a sudden itching sensation which used to keep me awake at night. I tried different kinds of ointment to stop the itching, which did not prove valuable in the least, and at one time I was so much pained by the hemorrhoids that I was obliged to use Cuticura Soap and Ointment. I used Cuticura Soap and Ointment and after using them a few times I found out for my great relief they gave me less pain and later on the bleeding began to cease. I got some more and continued with the regular use of Cuticura Soap and Ointment and after using them a few times I began to get better sleep at night and after six weeks' careful treatment I find that I am entirely cured." (Signed) A. Bennett, Mar. 28, 1912.

It is a skin cure of pimples, blackheads and other annoying eruptions, blemishes and white, hair-free and glowing skin. It is a skin cure of dandruff and itching, begins with the regular use of Cuticura Soap for the toilet, bath and shampoo, followed by the regular application of Cuticura Ointment, and throughout the work. The small sample of each mailed free with 25¢. Blue Book. Address: Post Office Box 100, Chicago, Ill., U.S.A.

Companionship of Woman dangerous if Motor Driving

Judge Says When Seated Next to Chauffeur They May Cause Accident

London, Aug. 1.—Magistrate Ploeden whose police court utterances have led to the coining of the word "pseudomama" today reiterated the dictum that nobody driving an automobile in the streets of London should have a woman seated beside him. He was trying a charge of manslaughter against the driver of an automobile which knocked down and killed a woman. The evidence showed that the driver had a female companion next to him.

"The automobile," said the court, "demanded the driver's full attention, which must be distracted by a woman sitting next to him. Companionship of ladies, some nervous and some inquisitive, some garrulous and some attractive, is distracting. In many ways the driver may be taken off his guard and accidents occur."

APART 16 YEARS, THEY WED AGAIN

New Hampshire Couple Quit Each Other in 1897 and Now They Have Returned.

Manchester, N.H., August 2.—A real life romance seldom paralleled culminated in the re-marriage of Eben Chase of this city and Mrs. Sarah Harriet Prescott of Hooksett. After sixteen years of happy wedded life, there came a misunderstanding for which neither was directly responsible, and on June 7, 1897, they separated without explanation. Until last month they had not conversed. Each loved the other, but each believed the other untrue, and each had married a second time.

On Memorial day they met at the home of a mutual friend in West Manchester, where each went to call without knowing of the other's presence. They were introduced by a third person who was in ignorance of their past.

They greeted each other as strangers, talked in the most matter of fact manner until about to take leave, when Mr. Chase addressed his former wife with the remark that it had been a "happy Memorial day" for him. With a handshake he bowed himself out.

On the morning of May 21 Mrs. Prescott received a message from Mr. Chase asking permission to call June 1, which privilege was granted.

The wedding took place at the home of Mrs. Prescott, Rev. David Fraser, pastor of the South Main Street Congregational church of this city, performed the ceremony at noon. The witnesses were the sister and brother-in-law of Mrs. Prescott, Mr. and Mrs. George H. of East Manchester.

Mr. and Mrs. Chase will go to Honk-moor for a few days to the farm of Mr. Chase, and on return will live at Mrs. Prescott's home at Hooksett.

Some years after their separation Mrs. Chase married George Prescott, who died two years ago. Mr. Chase also remarried, but the union proved unhappy and a separation followed.

Mr. Chase is a veteran of the civil war, having enlisted in Company B of the Eleventh New Hampshire regiment. He is a past commander of Capt. Joseph Prescott Post 74, and at present holds the office of quartermaster to the post. He is a member of Friendship Lodge L. O. O. F., at Hooksett. Mrs. Chase is a member of Mattie Lodge of Lebehach.

PURPOSE OF COMMERCE BODY.

Harry A. Wheeler, the president of the recently organized Chamber of Commerce of the United States of America, writes in the World's Work to describe the ambitious purpose of that body. He says:

"It is a matter of common knowledge that chambers of commerce, boards of trade and business associations generally have multiplied with incredible rapidity during the last ten years, until today not only every city but practically every hamlet has one or more of these civic commercial organizations."

"It should be apparent how the Chamber of Commerce of the United States of America, made possible by the existence of this multitude of commercial organizations, may in turn strengthen and perpetuate the source of its own life. By encouraging through organization, supported by resources sufficient for the task, by standardizing, in so far as possible, the plan of organization and method of operation, by bringing into the life of every organization that combat with national and international problems which hitherto it has been unable to handle, by recognizing the part each community and each individual is playing in the world's work, by articulating all of these independent local forces into a composite force, capable of thinking in national terms and speaking with a national voice, and finally, by elevating the work of the civic commercial secretary to the rank of a national and permanent profession, one which our colleges and universities will add to their curriculum, we encourage our young men to educate themselves for the work, as they would for the law, or medicine."

Not the Face For It.

"My boy, when I was your age I never winked. If you think you will be able to tell that to your son some day!"

"No, dad—no! With as straight a face as you tell it!"—Brooklyn Eagle.

American Secretary of War
Has Scheme for Volunteer
Army of Useful
Citizens.

"ANOTHER CRISIS" IS
REFERRED TO BY HIM

But He Refuses to Explain
what He Means by This
Remark Regarding Waking
Up of the People.

San Francisco, Aug. 1.—A big volunteer army to back up the regulars and the training of every enlisted man to a trade which will make him a useful citizen when his enlistment expires are among plans outlined by Secretary of War Garrison, speaking here yesterday at a luncheon given in his honor by the chamber of commerce. Secretary Garrison and his party left last night for Portland, making a tour of the Pacific coast defenses.

Reference by the secretary to the possible necessity of "another crisis" to wake up the people of the country aroused much interest, but he refused to comment on it after luncheon.

"We have a method of calling the youth of our land into military service as a patriotic duty," he said, "and we must have a way of training them so that there will be no economic waste to the country as a result of their service to the flag. We should develop our soldiers so that they can leave the army and get out into the labor market and into professional pursuits at the age of 25 or 26, well fitted to aid in the working out of our great industrial, commercial, scientific and governmental problems."

"Back of our standing army we must have a great reserve force and this reserve must be realized even if it takes another crisis to bring it to the minds of people. Under a volunteer system we have a volunteer army to back up the regulars and the soldiers and then we shall feel the fullest measure of protection. No one is more anti-militarist, if anti-militarism means the making of a large standing army as a burden to the taxpayers than I. Our soldiers should be so trained that their presence in the army will result in economic good. The problem of the army is a large one and I may remark in passing that if a war crisis should arise we should at once be prepared to enforce our rights. It takes two to keep peace as well as two to quarrel."

MEDIATION BOARD ASKED IN DISPUTE

Application Made for the Men
Working on the Intercol-
onial Railway.

Ottawa, Aug. 1.—An application for the appointment of a board of conciliation in the dispute between the Intercolonial railway management and the Brotherhood of Railway Employees, comprising clerks, freight and baggage handlers, was received at the labor department yesterday. It was signed by A. H. Mosher, grand president, who claims to represent 3,000 men.

The application is made under the old conciliation act and not under the industrial dispute act, the reason being that government railways are subject to the former and not to the latter.

As proceedings in such cases are usually taken under the industrial dispute act, which the minister prefers, it is probable that, if a board is granted, the parties will be asked to consent to operate under that act, which is more expeditious.

The minister of labor has the application under consideration and no decision is yet announced. Mr. Outelin has stated that he does not object to a board of conciliation, but that really the only subject for reference is whether confidential clerks should belong to a union.

MUST QUIT UNION OR MILITIA.

Vancouver, Aug. 1.—Vancouver's street railway men's union has passed a resolution ordering that all members of the militia among its members must either quit the militia or leave the union. Twenty members of the Highlanders' regiment are street railway men.

Lack of exercise and overwork
were the causes that combined to al-
most kill Samuel S. Stephens, Jr., one
of the best known citizens in Wood-
stock.

In his convincing letter, Mr. Steph-
ens says:

"A year ago I returned home after

a long trip, completely worn out. I
was so badly affected by chronic ill-
nesses, so much overdone by con-
stant headaches, dizziness, that I de-
paired of ever getting well.

"It was a blessing that I used Dr.
Hamilton's Pills. In one week I felt
like a new man. The feeling of
weight and nausea in my stomach dis-
appeared. My eyes looked brighter,
my tongue cleaner, and best of all,
color grew better, and, best of all,
I began to enjoy my meals. The dis-
tension and feeling of depression
passed away, and I felt regained
my old-time vigor and spirits. Today
I am well—thanks to Dr. Hamilton's
Pills."

Hunger Strike Indulged in by Negro Prisoner

Even Chicken and Watermelon
Fails to Shake Him in His
Determination.

Berlin, Ont., Aug. 1.—Joseph
Wood, a negro, was sentenced here
to six months for vagrancy and
is in a hunger strike at the county
jail. Even when Jailor Cook offered
him chicken with watermelon, the
prisoner refused the choice menu.

If he persists in starving him-
self, the authorities will use
forcible methods of feeding.

His strike has lasted for over
two days, but being of a strong
constitution he has not weakened.
This is the second instance of this
kind at the jail since the day
news has contained reports of
hunger strikes at suffragettes.

sulted in producing a mild form
of the disease which gives them

BEER BOTTLES SHORT.

Moose Jaw, Aug. 1.—Major Simpson,
J.P., yesterday afternoon gave his decision
in the Moose Jaw brewing com-
pany's case. He found the brewery
had sold bottles alleged to contain
quart which were three ounces short.
He imposed a fine of \$50. It is pos-
sible that the case will be appealed.

BADLY DROWNED IN WATER BARREL.

Winipeg, Aug. 1.—Charles
Baker, aged two, reaching
into a beer keg half full of
water tried to fill an empty
bottle. The water was low and
he overbalanced, falling into the
keg head first. He drowned
while his mother, missing him,
was seeking him in the streets.

A neighbor found the child,
but attempts at resuscitation
were unsuccessful.

CHASE & SANBORN - Montreal.

EUROPE READY TO LAND TROOPS IN MEXICO

(Continued from page one.)

Before making representations to the
United States, it was decided to send
special representatives to Mexico to
check up the reports received and also
to require the diplomatic representa-
tives in Mexico to send in daily re-
ports as to the latest developments and
prospects.

The reports of the diplomatic repre-
sentatives and the special agents were
daily made, and there was ambassa-
dor re-convinced in Paris to equal-
ize the report. It was found that af-

airs in Mexico were in a hopeless con-
dition. Huerta was found to be unable
to crush Carranza and Maytorena and
the latter were notable to dialogue
Huerta. Friendships was reported to
be rampant throughout the republic.
Representations had to be made to
the United States. Means of making
these representations most effective
and at the same time least offensive
were discussed. It was agreed that
France should speak for the powers.

France thereupon formally set forth
the state of affairs in Mexico as affect-
ing European interests. It asked the
United States to take immediate action
to remedy the situation. It intimated
that decisive action within 30 days
would be highly gratifying.

President Wilson immediately in-
structed Ambassador Huerta to come
to Washington.

Must Decide Soon.
Ambassador Wilson did not agree
with the United States as to the re-
cognition of Huerta. The ambassador
the best solution of the prob-
lem was to recognize Huerta, and

thus enable him to borrow money with
which to put forces in the field capable
of crushing the rebels. The only al-
ternative to this plan was to intervene
in his opinion.

President Wilson did not take kind-
ly to the idea of recognizing Huerta un-
der any circumstances, and he was
particularly opposed to the suggestion
that the United States should virtu-
ally become a partner with Huerta in
crushing the rebels.

The president and secretary Bryan
are casting about for a plan that will
bring peace in Mexico without recog-
nition of Huerta and without interven-
tion.

They must decide within a few days
whether the United States shall peace-
fully Mexico or whether they shall acquiesce
in the landing of armed forces in Mex-
ico by the European governments.

Arm shipped to Mexico.
New York, Aug. 1.—On the manifest
of the steamer Mexico of the Ward
line, which sailed yesterday for Vera
Cruz, Mexico, were 160 cases of rifles
and 680 cases of cartridges, consigned

to the military governor of the state of

Partial contents of Webster's New Illustrated Dictionary

Based upon Noah Webster's Dictionary, revised and brought UP TO DATE in accordance with the most eminent English and American authorities on spelling, pronunciation and definition, and especially designed to meet the popular demand for a CONVENIENT, complete and RELIABLE Dictionary.

It contains all the words of the English language that are not peculiarly appropriate to a Dictionary of technical terms; it gives the spelling and pronunciation of Plurals, and indicates the use of capital and small letters in writing every word in the vocabulary; it gives the Past Tense and the Participles of all verbs not regularly formed by the addition of -d, -ed, and -ing; the Pronunciation of each word is plainly indicated by phonetic spelling; the Definitions, comprehensive, yet concise, are accurate and reliable.

Preceding the Dictionary proper will be found a treatise on ABBREVIATIONS of the Parts of Speech and their grammatical signification. Also a discourse on the Origin, Composition and Derivation of the English Language.

The ANALYSIS of the "Principles of Grammar" will fill a long-felt want in promoting the correctness of speech, both spoken and written.

Under the head of "SIMPLIFIED SPELLING" will be found the rules as adopted by the SIMPLIFIED SPELLING BOARD, and giving a complete list of 300 words spelled in two ways, of which the Board says, "Choose the simpler spelling."

Finally is given a complete KEY TO PRONUNCIATION.

Surprising results are obtained in looking up the Spelling, Pronunciation and Definition of the

NEW WORDS

which have been incorporated into our language only yesterday, as it were. For instance: Aviator, Bi-plane, Brainstorm, Cordite, Okapi, Carburetter, Dictograph, Hookworm, Krypton, Lettergram, Nickelodeon, Oslerize, Stovaine, Taxicab, Zemule, Hangar, Equilibrator, etc.

Tecumseh, "Heap Big" Chief, Warrior-Orator, Used "Magic" to Cause Red Men's War on Whites!

By Frank Merriwell, Jr.

Tecumseh, the most famous Indian chief who ever lived, did you ever hear how he stamped his foot and made the earth tremble and the houses rattle?

Do you know the tale of the way he brother, "The Prophet," taught the red men to tell their tales, chattered by showing them "the arm of Tecumseh," flashing like a comet in the sky? Tecumseh, the "Flying Panther," was born away back in 1768, near the site of the present town of Springfield, O.

He was a cunning, clever, unafraid warrior, a natural born orator, a leader. This wonderful Indian had a remarkable power over the tribes of the west and south.

They admired him—they feared him—they believed he had supernatural powers.

It was when he was nearly 35 years old that Tecumseh's great ability to put his eloquence made its definite appearance.

Proud of his race, fond of admiration and determined to wipe out the white man and gain prize for himself at the same time, Tecumseh decided to form a great confederacy of the Indians against the whites.

The plan was to "exterminate the whites." The Indians were keenly interested in doing anything which might make this possible, for the whites were encroaching every day farther into their possessions.

Following out his grand scheme, just prior to the war of 1812, in which Tecumseh played a very important part, he moved out a formal invitation to the Indians in the south asking them to "go on the warpath," saying the British had sent him from the Great Lakes.

Then it was that "Flying Panther" presented his brother, the wily prophet, to use his knowledge, of the coming of a comet to play upon the superstitions of the Indians!

When all the red men were assembled, the Prophet walked out pompously into the clearing, and with his high voice and solemnity announced:

"You will see the arm of Tecumseh, his pale fire, stretched out in the vault of heaven soon. That will be the sign by which you shall know when to begin war!"

The Indians bowed their heads, for they believed wondrously in signs. As well did this magic work in subduing the Indians. Tecumseh determined to try some equally astounding trick upon others of the dark race when occasion demanded.

He did not travel far among the tribes in his call to battle over vines.

he came face to face with obstinate, unbelieving Tuslingens—Tulucos, the "Big Warrior."

None of his arts, nor all of his eloquence could make the "Big Warrior" believe it wise and right to take up arms against the settlers.

Tecumseh had never met with a denial before. He could not believe that it was possible "The Big Warrior" would stand firm against his arguments and entreaties.

At last, with anger and challenge, he decided to frighten the warrior!

"I will leave him directly and go straight to Detroit. When I get there I will stamp my foot upon the ground and shake down every house in 'Tuckanah,'" he said.

Strangely enough, as if the old earth were helping him in his schemes, about this time Tecumseh must have reached Detroit, there was heard a deep rumbling around all over the earth's surface.

The startled savages fled out of their villages crying, "Tecumseh is at Detroit. We feel the stamp of his foot!"

All the Indians felt down on their faces and made allegiance to the great flying panther—all except the "Big Warrior." He couldn't be moved.

After his famous tour among the Indian tribes, which is believed to have been the means of starting the Greek fire, Tecumseh joined the British forces in the war of 1812. Sometimes successful in gaining the aid of the red men and sometimes unsuccessful, the great Indian leader succeeded in winning the favor of the British. To the point of receiving a commission of brigadier general.

All through the war of 1812 he was the stalwart Indian warrior, using his wonderful power to subdue, to persuade and persuade many tribes. Sometimes he merely kept them from massacring prisoners. Sometimes he made them keep the peace. Other times he secured their active assistance.

Tecumseh's long eventful life closed in the battle of the Thames, when he was shot by mounted American soldiers.

It is believed that he was slain by Col. Richard M. Johnson, and the Kentuckians were so sure of it that they recorded it in a monument erected to his memory.

Only the Indian warriors who saw his body fall, picked it up and buried it, but no one knows who killed Tecumseh or where he is buried.

"I certainly can give you the latest news from the front. I just got back to the store this morning. Paris was as black and white as a newspaper—hardly a bit of color, except among the lower classes. Every one who made a pretense of being anybody was all black or black and white. The hats were all black, the skirts are tighter than ever—thirty-two inches across the bottom and very full and draped over the hips, the dresses are very low and short—showing even for a skirt, and they aren't wearing any gloves."

"There," he gasped, after that long sentence, "that is news from Paris. I have brought home eight black and white models for afternoon wear and four for evening. But I think that suits are going to be very popular in dull browns and greens, as well as in black and white. So I didn't bring exclusively black and white costumes."

Some of the new models are certainly fetching. There is a little affair, made of chamois lace, and a narrow neck of mother's pearl taffeta, and black charmeuse, the knots and ending in a narrow pointed train. The neck is high in back but with a deep V in front, edged with a frill of dotted net. The sleeves are of black satin outline the shoulder and center front seams.

Another model in black and white is an evening gown of black chamois lace over white chiffon. The bottom of this skirt, too, is edged with black satin. The case of black chiffon over black crepe. The lace makes the bodice and falls in a jacket effect to the knees. The sleeves are merely a three inch plaited frill of the lace. At the belt is a pure white bow, a poppy with nodding black jet streamers.

Flowers out several hours before really needed and placed immediately in water will be fresher than those just out. The reason for this is that the fragile stems when well filled with water do not drop water so quickly as those that have only their own juices to draw upon.

Gather flowers in the early morning. If wanted at night, and the night before at night, they are wanted to be at their best the next morning. A little salt in the water helps to keep them. Never place them on ice.

When flowers are to be shipped by mail they should be packed while the dew is upon them. Then place in water in a cool, dark place until night. Put a little damp moss or grass around their stems to insure their freshness upon arrival.

When selecting flowers for decorative purposes, remember that yellow and blue flowers appear much paler and rather dead, fading before the eye, while white flowers and those of bright color look well. Soft green show up not far better under artificial light.

Like Figures in a Black and White Poster so Paris Goes

Everybody Who is Anybody is Wearing All White, or All Black or a Combination of Both—Skirts Draped Over Hips, Narrow at Hem—Bodices Cut Low.

Parisians went mad over the White and Black. Paris, first and foremost, is the city of the fashion. And now everybody in Paris is crazy over black and white. Either black or white, or both. The boulevard looks like a procession of merry widows. Chic, stunning, startling, like the figures on a poster, the smart women of the greatest fashion metropolis on earth wander through the boulevards, or step from their black and white limousines to shop in the exclusive stores on the Rue de Rivoli.

The old feeling of antipathy for black is vanishing. The idea that, in its somber dullness, it is fit only to express grief and sorrow is fast fading. The ancient superstition about blondes wearing nothing but blue and brunettes dressing always in brown.

Black and white is the smart, the rare, the safe thing to wear today. It shows looks chic. It brings out every good point in its wearer. It is discreet, yet startling. And it certainly is fascinating.

Every combination is possible—all black, soft, dull, without shine or reflection, for the slender, stately blond.

MRS. BRYAN TENDING
HER PRESERVESPROVIDE READING
FOR YOUR GUESTS

Some Books that Might Profitably Find Their Way on Small Shelf.

In furnishing our guest room we try to make it beautiful, comfortable and homelike, but do we exercise the same care with the book-shelf as to the other furnishings? Do we stop to think of the different guests and their moods?

We want books for the rainy day, the tired traveler, and for those guests to whom reading brings the greatest restoration. How many brilliant minds have enriched this beautiful old world of ours and given us the opportunity of enjoying their thoughts? The children of some of these intellects should have a place on every shelf, and when we attempt to make a thoughtful selection we will not know where to stop.

There is Flaubert, whose Salambo rounds out one of a mighty octet, Dickens who will have, at least, Pickwick Papers, William Morris, that man who art, perceiving his culture being, making his books like a piece of fine tapestry or a rich mosaic. For example, "The Woods Beyond the World." The shelf will not be complete without "Vanity Fair" or "Middlemarch."

In drama we will want Macbeth. It would be difficult to find one to whom "Macbeth" does not appeal. The guest can bring her own flesh. Jane Austen has come into her own once more, and we will add "Pride and Prejudice" and "Mansfield Park."

Our guests as "Chitinous Marriage," light and witty as the name implies, yet so cleverly written that it is a good addition to the shelf.

Our poetry-loving friends, young and old, will always enjoy Mrs. Browning's "Sonnets from the Portuguese," or a little volume edited by Walter Learner, entitled "A Treasury of Favorite Poems." It contains something from most every poet, ancient or modern, who we know of. All that is required is a little thought, instead of filling the shelf with a number of late books, "fascinating" as they may be, but which will not last.

Our reward is our own satisfaction in seeing good friends read and knowing that each guest feels the influence of our taste in the selection.

COWAN'S
is so appetizing—so re-freshing. Its rich chocolate flavor is obtained by skillful blending and roasting of choice Cocoa beans. And only the fragrant and nourishing part of the Cocoa beans is used. Every particle of hull and shell, which if ground in would make the Cocoa bitter, is removed, absolutely, by modern machines and careful handling. Cowan's Perfection is the purest form of Cocoa obtainable.

EXTRA CAR ADDED FOR BUSINESS MEN'S TRIP
The board of trade have decided to run an extra car for the second half of the business men's trip, through the mountains, making it preferable for ladies to undertake the journey, according to a statement made by F. J. Fisher, the secretary, today. Mr. Fisher stated that the applications for the second half of the trip had been sufficiently large to justify the board of trade in enacting the special car. There are still, however, a few reservations vacant, for which immediate application should be made.

INTERURBAN AGREEMENT STILL FURTHER MANGLED
Committee Spends Morning in Pleasant Pastime of Tearing Out Clauses.

The St. Albert Interurban railway agreement was again the subject for discussion at a meeting of the public works committee held this morning. The process of adding to, and eliminating clauses and sections of the agreement was taken up where left off at the last meeting. The committee did not reach the end of their work this morning and another sitting at least will be necessary before the agreement is in shape to present to the council.

FIERCE STORM IN WASHINGTON, D.C.

Washington, Aug. 11.—Like a giant fist, a cyclonic storm of wind, rain and hail whipped back and forth across the capital yesterday, leaving death and ruin in its wake. Three dead, scores injured and hundreds of thousands of dollars worth of property ruined were the tolls recorded in the hurried canvass made when the city aroused itself from half an hour of helplessness in the grasp of the elements.

Out of a blazing sky, under which the city was sweltering with the temperature at the 100 point, came the storm roaring from the north, driving a mass of clouds that cast a mantle of total darkness over the town. The gale, reaching a velocity of nearly 70 miles an hour, swept the streets clear, tore up detached small structures from their foundations, wrecked one office building, overturned wagons and carried in the streets and swept Washington's hundred parks, tearing huge branches from trees, and even uprooting sturdy old oaks, the landmarks of a century.

The governor of Barcelona maintains that the strike was illegally declared, and announces that he will have 17,000 men at his disposal to prevent a revolutionary outbreak.

GOVERNOR FERRIS FAILS IN EFFORTS FOR PEACE
Operator Will Not Accept Plan to End Strike, Although the Members of the Union Do So.

Calumet, Mich., Aug. 11.—The attempt of Governor Ferris to end the copper mines' strike through a conference at Lansing, failed yesterday. The governor's plan was presented to both sides and accepted by the union, but declined by the operators, who, however, said they were willing to meet committees provided the men came as employees, and not as representatives of the Western Federation of Miners.

Penning word from the state capital the strike situation remained the same today. That the union leaders expect the trouble to continue, however, was shown by announcements that "Anti-Strikers" Jones had accepted their invitation to come to the copper country and would be here next Tuesday. Plans for a big demonstration of welcome to the aged strike leader were immediately begun.

BIG STRIKE IS ON AMONG SPANIARDS

Authorities Are Fearful that it May Assume Revolutionary Character.

Barcelona, Spain, Aug. 1.—A strike in the textile industries involving 64 factories has been called. The authorities here say that from statements of the workers they are fearful that the strike will assume a revolutionary character, and as a precaution reinforcements of troops are being hurried to the city.

The governor of Barcelona maintains that the strike was illegally declared, and announces that he will have 17,000 men at his disposal to prevent a revolutionary outbreak.

Calumet, Mich., Aug. 11.—The attempt of Governor Ferris to end the copper mines' strike through a conference at Lansing, failed yesterday. The governor's plan was presented to both sides and accepted by the union, but declined by the operators, who, however, said they were willing to meet committees provided the men came as employees, and not as representatives of the Western Federation of Miners.

Penning word from the state capital the strike situation remained the same today. That the union leaders expect the trouble to continue, however, was shown by announcements that "Anti-Strikers" Jones had accepted their invitation to come to the copper country and would be here next Tuesday. Plans for a big demonstration of welcome to the aged strike leader were immediately begun.

CASTRO REPORTED READY TO LAND ON VENEZUELAN SOIL

In Consequence of Revolution,
President Gomez Named
Dictator.

INVADING FORCE FROM
COLOMBIA ADVANCING

Venezuela Government Claims
to Have Situation Well in
Hand and Promises to Pub-
lish All News, Good or Bad

Caracas, Aug. 1.—In consequence of the outbreak of the revolution in Venezuela, and the invasion of the country by forces under the leadership of former President Cipriano Castro, the federal council today constituted an authorized President, Juan Vicente Gomez, to assume dictatorial powers until the movement is crushed.

It was rumored yesterday that Castro was on board a steamer off Coro, but the government received no definite news of his landing on Venezuelan soil. Official despatches state that an invading force from Colombia under the command of General Rosendo Gonzalez has been driven back steadily on the frontier of the state of Tachira, where Colonel Honor, in command of the state troops, has forced the rebels to abandon their positions.

On the other side of Venezuela revolutionists commanded by a nephew of Castro, attacked the state of Maturin on Tuesday and were defeated. It is claimed, by government troops under General Ayres.

No troops have yet been sent from Caracas to meet the rebels as the government believes the state troops are strong enough to deal with them.

President Gomez announced today that all news of hostilities would be published whether favorable or unfavorable to the government.

He says he feels he can safely do this because of his splendid army and also because public opinion is with the government. Telegraphic communication between the capital and the rest of the republic is maintained.

SEVERANT, A. J. LITTLE DEAD.

Quebec, B.C., Aug. 1.—The death occurred of Arthur J. Little, ex-servant of the Royal North West Mounted Police. He had been ailing for some months. He entered the R.N.W.M.P. in the year 1899, and served in its ranks for seven years. The depot division K. troops, situated at Lethbridge, was the scene of his early work as a member of the force. He was then transferred to the Yukon, and later did valuable work in this province.

WILL REDUCE CABLE RATES.

London, Aug. 1.—Right Hon. Lewis Harcourt, secretary of state for the colonies in the debate on the colonial office vote last night, announced that the cable rates with the West Indies would be reduced. He stated that the West Indians suffered very greatly from the present cable rates to this country which vary from 10 to 50 pence per word and which were crushing to telegraphic communication and commercial development.

PEACE JUSTICE FINED.

Kenosha, Ont., Aug. 1.—In the magistrates court this week, Colonel Order of Minaki, was fined \$50 and costs for acting as a justice of peace without having filed affidavits of qualification and allegiance. The charge arose out of the recent wrongful arrest of the Indian Minister and Crosby at Minaki.

ADMIRAL WRITSLAG DEAD.

London, Aug. 1.—Admiral Henry Rushworth Writslag, C.B., aged 81, died today at his residence, Highbury Regate. He served actively in the Indian in Vancouver Island, 1853; India, 1854; Indian Mutiny 1857-58 and retired in 1861.

\$35,000 LUMBER FIRE.

Cranbrook, Aug. 1.—The Standard Lumber company's mill, two miles south of this city, one of the largest and with a daily output of 30,000 feet, was totally destroyed by fire last night. The cause is supposed to have been a hot cigarette on an office machine. The loss is estimated at \$35,000, partially covered by insurance.

Brought My Stomach Back To Health

"That's Why I Recommend Nerviline"

"The person who suffers from a stomach ailment, if far from a doctor or drug store, is bound to be extremely miserable. Such was the case with Mr. Johnson B. Evans, a well known farmer living near Edmonton, who writes: 'My stomach got upset. I think owing to bad water. I found great pain after eating. There was swelling and much gas in my stomach and no person could have been more miserable. Away out in the country it is not easy to get medical attention except at great cost, and I had to do without. A neighbor who heard of my condition sent me a partly filled bottle of Nerviline. The first dose eased the pain in my stomach. How good that relief was I will never be able to tell. Nerviline cured me. Today our home is supplied with many bottles of Nerviline. No farmer should be without it, because if it's cramps, diarrhoea or internal pain, Nerviline is a dead sure cure. It's a strain, a little trouble, headache, rheumatism or neuritis, a few rubs with nerviline cures very quickly. For these reasons I recommend Nerviline.'

Know Nerviline is handy on the shelf. It prevents illness by curing little aches and pains at the beginning. Sold by every storekeeper and druggist. Family size 50c, trial size 25c, prepared by The Calumet-Henry Co., Buffalo, N.Y., U.S.A.

FAIR FOR PANAMA IS PASSED UP BY OTHER COUNTRIES

Russia Decides Not to Participate in the Exposition at San Francisco.

GERMANY AND AUSTRIA
NOT LIKELY TO EXHIBIT.

Belief is that Business Men do
Not Get Adequate Returns
for the Amount of Money
Expended.

St. Petersburg, Aug. 1.—The Russian government today decided not to participate officially in the San Francisco exposition.

Germany Not Probable.

Berlin, Aug. 1.—Although the German secretary of the interior declared today that Germany had not yet taken any action in regard to the question of participation in the Panama-Pacific exposition in San Francisco in 1915, his opinion is freely expressed in official circles that the German emperor will not be represented there.

It was pointed out today that the British government's decision not to participate settles also the action of Germany, as the only factor which might have induced the German government to bring pressure to bear on unwilling business to exhibit was the fear of an unfavorable comparison with Great Britain.

Business men in the majority of countries connected with frequent expositions and say they see no prospect of financial returns from exhibiting in San Francisco.

Question of Finance.

Vienna, Aug. 1.—A commission of representatives of the Austro-Hungarian government at the local chamber of commerce is about to go to Toronto to take the exhibition there, and subsequently proceed to San Francisco.

On this commission report depends the reply of the Austro-Hungarian government as to participation in the Panama-Pacific exposition.

The question is largely one of finance. The government hesitates to appropriate a sum sufficiently large to assure representation of the empire commensurate with the dignity of the empire.

THE WEATHER.

Forecast—Thunder, Saskatchewan and Alberta; Fine and quite warm today and on Saturday.

Bulletin—The weather throughout the prairie provinces has been fine and warm.
